

I listen to K-LOVE every day on the way to work and at home. I would be very disappointed if LPFM stations were given priority over the existing K-LOVE translators. K-LOVE is a guarantee of quality, commercial free, programming. Their music uplifts my spirits so I can face the day. In my community of Chico, California, we are in desperate need of this sort of music. Since this is a 'party town', a lot of the local stations have questionable moral content. We need K-LOVE to provide an alternative for college students here. If K-LOVE were to be replaced by LPFM many families and individuals here would lose the only connection they ever have to spirituality. We definitely don't need less sources of good moral influence in Chico. I urge you to allow K-LOVE to maintain its current broadcast stations in Chico and other areas as well. Thank you.
